

# Fahrenheit 451 Project

You will work in partners to create several slides as part of a 26 page “Alphabet Book” about our novel.

You will choose (randomly) several alphabet letters that you will have to connect to our novel.

Each letter of the alphabet should correspond to something **significant** from the story. You may look for elements of the story to go along with each letter (ex: characters, plot, themes, symbols, ideas, objects in the story, and so on).

In addition to finding a word/phrase that goes along with each letter of the alphabet, you will also give a brief explanation of its significance to the story and include a visual aid on each page.

Example from Watership Down: “H” is for Hazel , the protagonist, a rabbit, who is the leader of the rabbits at Watership Down.

You will be shown an example from Lord of the Flies so that you can get an idea of how the power point may be done.

Concentrate first on content, and then if you finish early, you may work on special effects. You have a limited amount of time in class, so you should be working on preparing ideas outside of class.

**Lab 115 work days** – Friday and Monday.

[Save your file as “Letters Name Name” --- example: ABC Steve A Hannah G]

**Presentation day** – Wednesday

## RUBRIC:

\_\_\_\_\_/5 - Letters have a word/phrase associated with them

\_\_\_\_\_/5 - Letters have at least one specific visual aid associated with them

\_\_\_\_\_/10 - An explanation (partly oral and partly written) is provided to further show the connection between the chosen word(s) and the significance to the novel.
